

EQUIPMENT ADDENDUM

(No-Cost Equipment with ZAP Deployment and 36-Month Processing Commitment)

This Equipment Addendum ("Addendum") is entered into by and between Wholesale Payments ("Processor"), its authorized point-of-sale provider Basil Solutions ("POS Provider"), and the undersigned Merchant. This Addendum is incorporated into and made part of the Merchant Processing Agreement ("MPA").

1. **Equipment Program**

Processor and/or POS Provider may provide Basil point-of-sale equipment to Merchant at no upfront hardware cost, subject to Merchant's compliance with the MPA and the terms of this Addendum.

Equipment is provided in consideration of Merchant's agreement to process payment transactions exclusively through Wholesale Payments for a period of thirty-six (36) months ("Commitment Term").

2. **ZAP Deployment**

Merchant acknowledges that completion of ZAP (Zero to Activation Program) is required for all system deployments and go-live.

ZAP represents the required process to take the system from initial setup through full activation and operational readiness. ZAP includes system configuration, installation, menu build, onboarding, and staff enablement necessary to ensure full system functionality and a successful go-live.

ZAP Options:

ZAP (Standard) – \$295 per station

Includes remote configuration, guided installation support, menu build, and virtual onboarding and staff enablement.

ZAP Pro (On-Site) – \$2,500 one-time fee per location

Includes all ZAP (Standard) services, plus on-site deployment by a certified technician, physical installation and configuration of all hardware, and on-site staff enablement and go-live support.

ZAP Pro replaces the standard ZAP fee and does not require the \$295 per station charge.

Merchant may install multiple stations or any combination of station types. For ZAP (Standard), total fees equal \$295 multiplied by the number of stations installed.

All ZAP fees are non-refundable once services have been performed.

Merchant agrees to pay a monthly SaaS platform fee per station based on the selected bundle for access to the Basil POS software platform, system updates, cloud services, and platform support. The SaaS fee will be billed monthly during the term of the Merchant Processing Agreement as follows:

- *Basil Core: \$60/month per station*
- *Basil Serve: \$90/month per station*
- *Basil Pro: \$120/month per station*
- *Basil View: \$65/month per station*

3. **Additional Equipment**

Any equipment not included in the station bundles listed above must be purchased separately at POS Provider's then-current pricing.

Additional equipment may include, but is not limited to point-of-sale terminals, receipt printers, handheld devices, card readers, cash drawers, and kitchen display screens.

4. *Processing Commitment*

Merchant agrees to process payment transactions exclusively through Wholesale Payments for the full thirty-six (36) month Commitment Term.

The equipment program is provided in consideration of this processing commitment.

5. *Ownership of Equipment*

Upon Merchant's successful completion of the thirty-six (36) month Commitment Term, ownership of the equipment provided under this Addendum shall transfer to Merchant at no additional cost.

After completion of the Commitment Term, Merchant may retain the equipment regardless of whether Merchant chooses to continue or terminate the Merchant Processing Agreement.

6. *Early Termination*

If Merchant terminates the MPA, ceases processing through Wholesale Payments, or otherwise breaches the agreement prior to completion of the Commitment Term, Merchant must either:

- 7. Return all equipment provided under this Addendum within ten (10) business days, or*
- 8. Pay the applicable equipment buyout amount determined by POS Provider.*

Equipment not returned within the required timeframe may be charged to Merchant at the full replacement value.

7. *Equipment Condition & Warranty*

Merchant assumes responsibility for equipment while in Merchant's possession prior to completion of the Commitment Term and agrees to pay the replacement cost for any equipment that is lost, stolen, or damaged.

Equipment is covered only for manufacturer hardware malfunctions and does not include coverage for broken screens, liquid damage, misuse, negligence, theft, or accidental damage.
